“§ 115A-3. State Board of Education to Establish Department to Administer System of Educational Institutions. The State Board of Education is authorized to establish and organize a department to provide State-level administration, under the direction of the board of a system of community colleges, technical institutes, and industrial education centers, separate from the free public school system of the State. The board shall have authority to adopt and administer all policies, regulations, and standards which it may deem necessary for the establishment and operation of the department. The personnel of the department shall be governed by the same policies as the personnel of the other departments of the Board of Education and shall be subject to the provisions contained in Article 2, Chapter 143 of the General Statutes; except the position of the director or chief administrative officer of the department shall be exempt from the provisions of the State Personnel Act, and the compensation of this position shall be fixed by the Governor, upon the recommendation of the State Board of Education, subject to approval by the Advisory Budget Commission.

“The State Board of Education shall appoint an Advisory Council consisting of at least seven members to advise the board on matters relating to personnel, curricula, finance, articulation, and other matters concerning institutional programs and coordination with other educational institutions of the State. Two members of the Advisory Council shall be members of the North Carolina Board of Higher Education or of its professional staff, and two members of the Advisory Council shall be members of the faculties or administrative staffs of institutions of higher education in this State.

“§ 115A-4. Establishment and Transfer of Institutions. After the effective date of this Chapter, the establishment of all community colleges, technical institutes, and industrial education centers shall be subject to the prior approval of the State Board of Education and each institution shall be established only in accordance with the provisions of this Chapter and the regulations, standards, and procedures adopted by the board not inconsistent herewith. In no case, however, shall approval be granted by the board for the establishment of an institution until it has been demonstrated to the satisfaction of the board that a genuine educational need exists within a proposed administrative area,

that existing public and private post-high school institutions in the area will not meet that need, that adequate local financial support for the institution will be provided, that public schools in the area will not be affected adversely by the local financial support required for the institution, and that funds sufficient to provide State financial support of the institution are available.

"In approving the request of the Board of Trustees of an industrial education center for the establishment of an educational program, it shall be a matter of general policy of the State Board of Education to require that it be demonstrated to the satisfaction of the State Board of Education that the educational and occupational needs the proposed program is designed to meet are not already met by similar educational programs maintaining standards acceptable to the State Board of Education in other public or private schools in the administrative area of the industrial education center.

"In approving the request of the Board of Trustees of an industrial education center for the establishment of an educational program, it shall be a matter of general policy of the State Board of Education to require that it be demonstrated to the satisfaction of the State Board of Education that the industrial education center is not assuming the continuing responsibility for providing for individual manufacturing firms or corporations the routine training required for regular operator training in the factories of the firm or corporation made necessary because of turnover of personnel.

"The State Board of Education and the North Carolina Board of Higher Education shall co-operate in providing for the orderly transfer of the administration and operation of College of the Albemarle, Mecklenburg College, and all other public community colleges designated by the General Assembly, from the provisions of Article 3, Chapter 116, of the General Statutes of North Carolina to the provisions of this Chapter. Such transfer shall be accomplished as provided by this Chapter and regulations and procedures adopted jointly by the two boards. The two boards shall also provide by regulation for the transfer, without consideration, of title to all property, funds, and unexpended appropriations of the colleges held heretofore by the Boards of Trustees of the colleges from such boards to the respective Boards of Trustees established pursuant to this Chapter.

"Provision shall be made for the orderly transfer of the administration and operation of all industrial education centers from local boards of education of the State public school system to Boards of Trustees established pursuant to this Chapter for the purpose of administering and operating such centers as provided in this Chapter. Such transfer shall be accomplished as provided by this Chapter and regulations and procedures

adopted by the State Board of Education. Upon transferal of each industrial education center the local board of education previously operating the center shall transfer, without consideration, title to the property, funds, and unexpended appropriations heretofore held by such board for the center to the Board of Trustees established for the center pursuant to this Chapter. Provided, if an industrial education center ceases to operate as an institution, as defined in this Chapter, title to real property transferred to a Board of Trustees from the local board of education, previously operating the center, shall revert to such board of education, and said Board of Trustees shall thereupon, by proper instrument, convey the same to such board of education. Where plans are being made to relocate an existing industrial education center by moving it from buildings on or adjacent to a senior high school campus, the State Board of Education may designate the local board of education now operating the industrial education center as the Board of Trustees for the continued operation of the industrial education center until such time as the industrial education center is so relocated; and the Board of Trustees provided for in this Chapter may be appointed to develop the new or reorganized institution but shall not have control of the existing industrial education center until it is transferred to the new site.

“§ 115A-5. State Administration of Institutions. The State Board of Education may adopt and execute such policies, regulations and standards concerning the establishment and operation of institutions as the board may deem necessary to insure the quality of educational programs, to promote the systematic meeting of educational needs of the State, and to provide for the equitable distribution of State and Federal funds to the several institutions.

“The State Board of Education shall establish standards and scales for salaries and allotments paid from funds administered by the board, and all employees of the institutions shall be exempt from the provisions of the State Personnel Act. The board shall have authority with respect to individual institutions: to approve sites, buildings, building plans, budgets; to approve the selection of the chief administrative officer; to establish and administer standards for professional personnel, curricula, admissions, and graduation; to regulate the awarding of degrees, diplomas, and certificates; to establish and regulate student tuition and fees and financial accounting procedures.

“On petition of the board of education of the school administrative unit in which an institution is proposed to be established, the State Board of Education may approve the utilization by such proposed institution of existing public school facilities, if the board finds:

a. that an adequate portion of such facilities can be devoted to the exclusive use of the institution, and

b. that such utilization will be consistent with sound educational considerations.

“§ 115A-6. Withdrawal of State Support. The State Board of Education may withdraw or withhold State financial and administrative support of any institutions subject to the provisions of this Chapter in the event that:

“(1) the required local financial support of an institution is not provided;

“(2) sufficient State funds are not available;

“(3) the officials of an institution refuse or are unable to maintain prescribed standards of administration or instruction; or

“(4) local educational needs for such an institution cease to exist.

“ARTICLE 2.

“Local Administration.

“§ 115A-7. Each Institution to Have Board of Trustees; Selection of Trustees. (a) Each community college and technical institute established or operated pursuant to this Chapter shall be governed by a Board of Trustees consisting of twelve members, who shall be selected by the following agencies.

“Group One—four trustees, elected by the board of education of the public school administrative unit located in the administrative area of the institution. If there are two or more public school administrative units, whether city or county units, or both, located within the administrative area, the trustees shall be elected jointly by all of the boards of education of those units, each board having one vote in the election of each trustee, except as provided in Section 115A-37.

“Group Two—four trustees, elected by the board of commissions of the county in which the institution is located. Provided, however, if the administrative area of the institution is composed of two or more counties, the trustees shall be elected jointly by the boards of commissioners of all those counties, each board having one vote in the election of each trustee.

“Group Three—four trustees, appointed by the Governor.

“(b) Each industrial education center established or operated pursuant to this Chapter shall be governed by a Board of Trustees consisting of eight members, four of whom shall be selected by the agencies provided for Group One in subsection (a) above and four by the agencies provided for Group Two above.

“(c) All trustees shall be residents of the administrative area of the institution for which they are selected or of counties contiguous thereto.

“(d) Vacancies occurring in any group for whatever reason shall be filled for the remainder of the unexpired term by the agency or agencies authorized to select trustees of that group and in the manner in which regular selections are made. Should the selection of a trustee not be made by the agency or agencies having the authority to do so within sixty (60) days after the date on which a vacancy occurs, whether by creation or expiration of a term or for any other reason, the Governor shall fill the vacancy by appointment for the remainder of the unexpired term.

“§ 115A-8. **Term of Office of Trustees; Initial Terms.** Trustees shall serve for terms of eight (8) years, except that initially:

“(1) For all industrial education centers and technical institutes and for those community colleges for which Boards of Trustees first shall be established pursuant to the provisions of this Chapter, terms of the members of each board shall be so set by the selecting agencies that the term of a member in each group in Section 115A-7(a), shall expire on June 30 of every other year, the shortest term to expire on June 30 of the next odd-numbered year following the date the Board of Trustees is established. Thereafter, all terms shall be eight (8) years and shall commence on July 1.

“(2) For those community colleges which hereafter shall be operated pursuant to this Chapter but for which the Boards of Trustees have previously been appointed pursuant to the provisions of Article 3, Chapter 116, of the General Statutes, all trustees previously appointed and currently serving shall continue to serve until the expiration of their respective terms.

a. As the terms of the four trustees previously appointed by the city and/or county boards of education expire, their successors shall be selected by the agencies specified for Group One in Section 115A-7, so that a term shall expire on June 30 of every other year, the shortest term to expire on June 30 of the next odd-numbered year following the date the successors are appointed. Thereafter, all terms shall be eight (8) years and shall commence July 1.

b. As the terms of the four trustees previously appointed by the governing board of the municipality and/or the board of commissioners expire, their successors shall be selected by the agencies specified for Group Two in Section 115A-7, so that a term shall expire on June 30 of every other year, the shortest term to expire on June 30 of the next odd-numbered year following the date the successors are appointed. Thereafter, all terms shall be eight (8) years and shall commence on July 1.

c. As the terms of the four trustees previously appointed by the Governor expire, their successors shall be appointed by the Governor, so that a term shall expire on June 30 of every other year, the shortest term to expire on June 30 of the next odd-numbered year following the date the successors are appointed. Thereafter, all terms shall be eight (8) years and shall commence on July 1.

“§ 115A-9. Board of Trustees a Body Corporate; Corporate Powers. The Board of Trustees of each institution shall be a body corporate with all powers usually conferred upon such bodies to enable it to acquire, hold, and transfer real and personal property, to enter into contracts, to institute and defend legal actions and suits, and to exercise such other rights and privileges as may be necessary for the management and administration of the institution and for carrying out the provisions and purposes of this Chapter. The official title of each board shall be ‘The Trustees of _____’ (filling in the name of the institution) and such title shall be the official corporate name of the institution.

“The several Boards of Trustees shall hold title to all real and personal property donated to their respective institutions or purchased with funds provided by the tax levying authorities of their respective institutions. Title to equipment furnished by the State shall remain in the State Board of Education. In the event that an institution shall cease to operate, title to all real and personal property donated to the institution or purchased with funds provided by the tax levying authorities, except as provided for in Section 115A-4, shall vest in the county in which the institution is located, unless the terms of the deed of gift in the case of donated property provides otherwise, or unless in the case of two or more counties forming a joint institution the contract provided for in Section 115A-37 provides otherwise.

“§ 115A-10. Commissioners for Special Purpose. All trustees of institutions in this Chapter are declared to be commissioners for special purposes within the meaning of Article XIV, Section 7, of the Constitution of North Carolina.

“§ 115A-11. Compensation of Trustees. Trustees shall receive no compensation for their services but shall receive reimbursement, according to regulations adopted by the State Board of Education, for cost of travel, meals, and lodging while performing their official duties.

“§ 115A-12. Organization of Boards; Meetings. At the first meeting after its selection, each Board of Trustees shall elect from its membership a chairman, who shall preside at all board meetings, and a vice chairman, who shall preside in the absence of the chairman. The trustees shall also elect a secretary, who need not be a trustee, to keep the minutes of all board meetings.

All three officers of the board shall be elected for a period of one year but shall be eligible for re-election by the board.

"Each Board of Trustees shall meet as often as may be necessary for the conduct of the business of the institution but shall meet at least once every three (3) months. Meetings may be called by the chairman of the board or by the chief administrative officer of the institution.

"§ 115-13. Removal of Trustees. Should the State Board of Education have sufficient evidence that any member of the Board of Trustees of an institution is not capable of discharging, or is not discharging, the duties of his office as required by law or lawful regulation, or is guilty of immoral or disreputable conduct, the board shall notify the chairman of such Board of Trustees, unless the chairman is the offending member, in which case the other members of the board shall be notified. Upon receipt of such notice there shall be a meeting of the Board of Trustees for the purpose of investigating the charges, at which meeting a representative of the State Board of Education may appear to present evidence of the charges. The allegedly offending member shall be given proper and adequate notice of the meeting and the findings of the other members of the board shall be recorded, along with the action taken, in the minutes of the Board of Trustees. If the charges are, by an affirmative vote of two-thirds of the members of the board, found to be true, the Board of Trustees shall declare the office of the offending member to be vacant.

"Nothing in this Section shall be construed to limit the authority of a Board of Trustees to hold a hearing as provided herein upon evidence known or presented to it.

"§ 115A-14. Powers and Duties of Trustees. The trustees of each institution shall constitute the local administrative board of such institution, with such powers and duties as are provided in this Chapter and are delegated to it by the State Board of Education. Included in the powers granted to the trustees are the following:

"(1) To elect a president or chief administrative officer of the institution for such term and under such conditions as the trustees may fix, such election to be subject to the approval of the State Board of Education.

"(2) To elect or employ all other personnel of the institution upon nomination by the president or chief administrative officer, subject to standards established by the State Board of Education.

"(3) To purchase any land, easement, or right-of-way which shall be necessary for the proper operation of the institution, when such site has been approved by the State Board of Education, and, if necessary, to acquire land by condemnation in the

same manner and under the same procedures as provided in Article 2, Chapter 40 of the General Statutes. For the purpose of condemnation, the determination by the trustees as to the location and amount of land to be taken and the necessity therefor shall be conclusive.

“(4) To apply the standards and requirements for admission and graduation of students and other standards established by the State Board of Education.

“(5) To receive and accept private donations, gifts, bequests, and the like and to apply them or invest any of them and apply the proceeds for the purposes and upon the terms which the donor may prescribe and which are consistent with the provisions of this Chapter and the regulations of the State Board of Education.

“(6) To provide all or part of the instructional services for the institution by contracting with other public or private educational institutions of the State, according to regulations and standards adopted by the State Board of Education.

“(7) To perform such other acts and do such other things as may be necessary or proper for the exercise of the foregoing specific powers, including the adoption and enforcement of all reasonable rules, regulations, and bylaws for the government and operation of the institution under this Chapter and for the discipline of students.

“§ 115A-15. State Retirement System for Teachers and State Employees; Social Security. Solely for the purpose of applying the provisions of Chapter 135 of the General Statutes of North Carolina, ‘Retirement System for Teachers and State Employees, Social Security’, the institutions of this Chapter are included within the definition of the term ‘Public School’, and the institutional employees are included within the definition of the term ‘Teacher’, as these terms are defined in Section 135-1.

“§ 115A-16. Workmen’s Compensation Act Applicable to Institutional Employees. The provisions of Chapter 97 of the General Statutes of North Carolina, the Workmen’s Compensation Act, shall apply to all institutional employees. The State Board of Education shall make the necessary arrangements to carry out those provisions of Chapter 97 which are applicable to employees whose wages are paid in whole or in part from State funds. The State shall be liable for compensation, based upon the average weekly wage as defined in the Act, of an employee regardless of the portion of such wage paid from other than State funds.

“The Board of Trustees of each institution shall be liable for Workmen’s Compensation for employees whose salaries or wages are paid by the board entirely from local public or special funds.

Each Board of Trustees is authorized to purchase insurance to cover such compensation liability and to include the cost of insurance in the annual budget of the institution.

"The provisions of this Section shall not apply to any person, firm or corporation making voluntary contributions to institutions for any purpose, and such a person, firm, or corporation shall not be liable for the payment of any sum of money under the provisions of this Section.

"§ 115A-17. Waiver of Governmental Immunity from Liability for Negligence of Agents and Employees of Institutions. The Board of Trustees of any institution, by obtaining liability insurance as provided in Section 115A-35, is authorized to waive its governmental immunity from liability for the death or injury of person or for property damage caused by the negligence or tort of any agent or employee of the Board of Trustees when the agent or employee is acting within the scope of his authority or the course of his employment. All automobiles, buses, trucks, or other motor vehicles intended primarily for use on the public roads and highways which are the property of a Board of Trustees shall be insured at all times with liability insurance as provided in Section 115A-35. Governmental immunity shall be deemed to have been waived by the act of obtaining liability insurance, but only to the extent that the board is indemnified for the negligence or torts of its agents and employees and only as to claims arising after the procurement of liability insurance and while such insurance is in force.

"ARTICLE 3.

"Financial Support.

"§ 115A-18. State Financial Support of Institutions. (a) The State Board of Education shall be responsible for providing from sources available to the board funds to meet the financial needs of institutions, as determined by policies and regulations of the board, for the following budget items:

“(c) All formal requests for elections regarding the levying of special taxes shall state the maximum annual rate for which approval is to be sought in an election.

“(d) Nothing in this Section shall be construed to deny or limit the power of the tax levying authority of an institution to hold elections, of its own motion, on any or all the questions provided in this Section, subject to the provisions herein.

“§ 115A-23. Conversion of Institutions. Whenever the Board of Trustees of an institution requests the State Board of Education to convert the institution from an industrial education center to a technical institute or community college, or from a technical institute to a community college, the board may require, as a prerequisite to such conversion:

“(1) The authorization by the voters of the administrative area of an annual levy of taxes within a specified maximum annual rate sufficient to provide the required local financial support for the converted institution, in an election held in accordance with the appropriate provisions of Sections 115A-20 and 115A-22.

“ARTICLE 4.

“Budgeting, Accounting, and Fiscal Management.

“§ 115A-27. Preparation and Submission of Institutional Budgets. On or before the first day of May of each year, the trustees of each institution shall prepare and submit a capital outlay budget and a current expense budget, on forms provided by the State Board of Education, and may prepare in their discretion a supplemental current expense budget. The budgets shall be prepared and submitted for approval according to the following procedures:

“(1) Capital outlay budget: The budget shall contain the items of capital outlay, as provided in Sections 115A-18 and 115A-19, for which funds are requested, from whatever source. The budget shall be submitted first to the tax levying authority, which shall approve or disapprove, in whole or in part, that portion of the budget requesting local public funds. Upon approval by the tax levying authority, the budget shall be submitted by the trustees to the State Board of Education, which may approve or disapprove, in whole or in part, that portion of the budget requesting State or Federal funds.

“(2) Current expense budget: The budget shall contain the items of current operating expenses, as provided in Sections 115A-18 and 115A-19, for which funds are requested, from whatever source. The budget shall be submitted first to the tax levying authority, which shall approve or disapprove, in whole or in part, that portion of the budget requesting local public funds. Upon

approval by the tax levying authority, the budget shall be submitted by the trustees to the State Board of Education, which may approve or disapprove, in whole or in part, the entire budget. The State Board is authorized to withhold the allocation of State funds to an institution until a budget has been submitted to and approved by the board.

“(3) Supplemental current expense budget: The budget may contain any items of the current expense budget to be financed from State or Federal funds which the trustees desire to supplement with local funds. The tax levying authority shall approve or disapprove, in whole or in part, that portion of the budget requesting local public funds. An information copy of the budget as approved shall be filed with the State Board of Education.

“(4) No public funds shall be provided an institution, either by the tax levying authority or by the State, except in accordance with the budget provisions of this Chapter.

“(5) The preparation of a budget for and the payment of interest and principal on indebtedness incurred on behalf of an institution shall be the responsibility of the county accountant or county accountants of the administrative area and the Board of Trustees of the institution shall have no duty or responsibility in this connection.

“§ 115A-28. **Administration of Institutional Budgets for Local Public Funds.** (a) **Duty of Boards of Trustees:** It shall be the duty of the Board of Trustees of each institution to pay all obligations incurred in the operation of the institution promptly and when due, and to this end Boards of Trustees shall inform the tax levying authority from month to month of any anticipated expenditures which will exceed the current collection of taxes and such balance as may be on hand, if any, for the payment of said obligations, in order that the tax levying authority may make provision for the funds to be available. If a Board of Trustees shall willfully create a debt that shall in any way cause the expense of the year to exceed the amount authorized in the budget, without the approval of the tax levying authority, the indebtedness shall not be a valid obligation of the institution and the members of the board responsible for creating the debt may be held personally liable for the same.

“(b) **Duty of tax levying authorities:** It shall be the duty of the tax levying authority of each institution to provide, as needed, the funds to meet the monthly expenditures, including salaries and other necessary operating expense, as set forth in a statement prepared by the Board of Trustees and in accordance with the approved budget. If the collection of taxes does not yield sufficient revenue for this purpose, it shall be the duty of the tax levying authority to borrow against the amount approved in the budget and to issue short term notes for the

amount so borrowed in accordance with the provisions of the County Finance Act and the Local Government Act. The interest on all such notes shall be provided by the tax levying authority in addition to the amount approved in the budget, unless this item is specifically included in the budget.

“§ 115A-29. Payment of State and Local Public Funds to Boards of Trustees. (a) The State Board of Education may deposit funds in the State Treasury to the credit of each institution in monthly installments, at such time and in such manner as may be necessary to meet the needs of the institution, or the board may disburse State funds to each institution under policies and regulations established by the board. Prior to the deposit or disbursement of State funds by the board it shall be the duty of the Board of Trustees of each institution to file, on or before the first day of each month, with the State Board of Education a certified statement, on forms provided by the State Board of Education, of all expenditures, salaries, and other obligations that may be due and payable in the next succeeding month.

“(b) Upon the basis of an approved budget, the county auditors or accountants of all counties of the administrative area of an institution shall determine the proportion of taxes, non-tax revenues and other funds accruing to the current expense and capital outlay budgets of the institution and shall credit these funds to the institution as they are collected. The county treasurer or corresponding official of each county shall remit promptly at the end of each month all funds collected for current expenses and capital outlay, except bond funds, to the Board of Trustees of the institution.

“In the event that a greater amount is collected and paid to the Board of Trustees of an institution than is authorized by its approved budgets for current expenses and capital outlay, the excess shall remain an unencumbered balance to be credited proportionally to those funds in the following fiscal year, and such excess shall not be spent, committed, or obligated unless the budget is revised with the approval of the Board of Trustees and the tax levying authority.

“(c) Funds received by the trustees of an institution from insurance payments for loss or damage to buildings shall be used for the repair or replacement of such buildings or, if the buildings are not repaired or replaced, to reduce proportionally the institutional indebtedness borne by the counties of the administrative area of the institution receiving the insurance payments. If such payments which are not used to repair or replace institutional buildings exceed the total institutional indebtedness borne by all counties of the administrative area, such excess funds shall remain to the credit of the institution and be applied to the next succeeding capital outlay budgets until the excess fund shall be expended. Funds received by the trustees of an

institution for loss or damage to the contents of buildings shall be divided between the Board of Trustees and the State Board of Education in proportion to the value of the lost contents owned by the Board of Trustees and the State, respectively. That portion retained by the trustees shall be applied to the repair or replacement of lost contents or shall remain to the credit of the institution to be applied to the next succeeding capital outlay and current expense budgets, as appropriate, until such funds shall be expended.

“§ 115A-30. Disbursement of Institutional Funds. Public funds provided for an institution shall be paid out as follows:

“(1) State funds: All State funds received by or deposited to the credit of an institution shall be disbursed only upon warrants drawn on the State Treasurer and signed by two employees of the institution who shall have been designated by the Board of Trustees and who shall have been approved by the State Board of Education. Such funds may be disbursed in any other manner provided by regulations of the State Board of Education.

“(2) Local funds: All local public funds received by or credited to an institution shall be disbursed on warrants signed by two employees of the institution who shall have been designated by the Board of Trustees and who shall have been approved by the State Board of Education. Such warrants shall be countersigned by the appropriate county officer or officers as provided by law, but only if the funds required by such warrant are within the amount of funds remaining to the credit of the institution and are within the unencumbered balance of the appropriation for the item of expenditure according to the approved budgets of the institution. Each warrant shall be accompanied by an invoice, statement, voucher, or other basic document which indicates to the satisfaction of the countersigning county officer or officers that the issuance of such warrant is proper.

“§ 115A-31. Purchase of Equipment and Supplies. It shall be the duty of the several Boards of Trustees to purchase all supplies, equipment, and materials in accordance with contracts made by or with approval of the North Carolina Department of Administration. No contract shall be made by any Board of Trustees for purchases unless provision has been made in the budget of the institution to provide payment therefor, and in order to protect the State purchase contracts, it is the mandatory duty of the Board of Trustees and administrative officers of each institution to pay for such purchases promptly in accordance with the contract of purchase.

“§ 115A-32. Audits of Institutional Accounts. The State Auditor shall be responsible for conducting annually a thorough post audit of the receipts, expenditures, and fiscal transactions of each institution.

"The annual audits shall be completed as near to the close of the fiscal year as practicable and copies of each audit shall be filed with the chairman of the Board of Trustees, the executive head of the institution, the county auditor of each county of the administrative area, the State Board of Education, and the Director of the Local Government Commission.

"§ 115A-33. Surety Bonds. The State Board of Education shall determine what State employees and employees of institutions shall give bonds for the protection of State funds and property and the board is authorized to place the bonds and pay the premiums thereon from State funds.

"The Board of Trustees of each institution shall require all institutional employees authorized to draw or approve checks or vouchers drawn on local funds, and all persons authorized or permitted to receive institutional funds from whatever source, and all persons responsible for or authorized to handle institutional property, to be bonded by a surety company authorized to do business in this State in such amount as the Board of Trustees deems sufficient for the protection of such property and funds. The tax levying authority of each institution shall provide the funds necessary for the payment of the premiums on such bonds.

"§ 115A-34. Fire and Casualty Insurance on Institutional Buildings and Contents. (a) The Board of Trustees of each institution, in order to safeguard the investment in institutional buildings and their contents, shall

"(1) Insure and keep insured each building owned by the institution to the extent of the current insurable value, as determined by the insured and insurer, against loss by fire, lightning, and the other perils embraced in extended coverage; and

"(2) Insure and keep insured equipment and other contents of all institutional buildings that are the property of the institution or the State or which are used in the operation of the institution.

"(b) The tax levying authority of each institution shall provide the funds necessary for the purchase of the insurance required in (a) above.

"(c) Boards of Trustees may purchase insurance from companies duly licensed and authorized to sell insurance in this State or may obtain insurance in accordance with the provisions of Article 16, Chapter 115, of the General Statutes, 'State Insurance of Public School Property'.

"§ 115A-35. Liability Insurance. (a) Boards of Trustees may purchase liability insurance only from companies duly licensed and authorized to sell insurance in this State. Each contract of

insurance must by its terms adequately insure the Board of Trustees against any and all liability for any damages by reason of death or injury to person or property proximately caused by the negligence or torts of the agents and employees of such Board of Trustees or institution when acting within the scope of their authority or the course of their employment. Any company which enters into such a contract of insurance with a Board of Trustees, by such act waives any defense based upon the governmental immunity of such board.

“(b) Any person sustaining damages, or in case of death, his personal representative, may sue a Board of Trustees insured under this Section for the recovery of such damages in any court of competent jurisdiction in this State, but only in a county of the administrative area of the institution against which the suit is brought; and it shall be no defense to any such action that the negligence or tort complained of was in pursuance of a governmental, municipal, or discretionary function of such Board of Trustees, to the extent that such board is insured as provided by this Section.

“(c) Nothing in this Section shall be construed to deprive any Board of Trustees of any defense whatsoever to any action for damages, or to restrict, limit, or otherwise affect any such defense; and nothing in this Section shall be construed to relieve any person sustaining damages or any personal representative of any decedent from any duty to give notice of such claim to the Board of Trustees or commence any civil action for the recovery of damages within the applicable period of time prescribed or limited by law.

“(d) No part of the pleadings which relate to or allege facts as to a defendant's insurance against liability shall be read or mentioned in the presence of the trial jury in any action brought pursuant to this Section. Liability shall not attach unless the plaintiff shall waive the right to have all issues of law and fact relating to insurance in such action determined by a jury, and such issues shall be heard and determined by the judge without resort to a jury and the jury shall be absent during any motions, arguments, testimony or announcements of findings of fact or conclusions of law with respect thereto, unless the defendant shall request jury trial thereon.

“(e) The Board of Trustees of all institutions in this Chapter are authorized to pay as a necessary expense the lawful premiums of liability insurance provided in this Section.
